## 1. QUALIFICATIONS

The following Tenement Schedule has been prepared by Kings Park Corporate Lawyers based on a tenement list (**Tenements**), provided by Torian as current as at 10 October 2016 and on the following qualifications.

For the purpose of the Tenement Schedule, we have conducted the following searches and enquiries:

- (a) searches of the Tenements in the mining tenement register (**DMP Register**) maintained by the Department of Mines and Petroleum of Western Australia (**DMP**) pursuant to the *Mining Act 1978* (WA) and Mining Regulations 1981 (WA) (**Mining Act**) conducted on 14 November 2016; and
- (b) quick appraisal searches of the Tenements summarising information obtained online from the 'TENGRAPH' system maintained by the DMP conducted on 14, 15 and 16 November 2016.

Based on our searches and enquiries and subject to the assumptions and qualifications set out below, we confirm at the date of the searches that:

- (c) the details of the Tenements referred to in the Schedule are accurate as to the status and registered holders of those Tenements as at the date of the searches;
- (d) unless otherwise specified in the Tenement Schedule, the Tenements are in good standing and all applicable rents have been paid;
- (e) none of the Tenements are subject to any unusual conditions of a material nature other than as disclosed in the Tenement Schedule;
- (f) the statements as to third party interests, including encumbrances in relation to the Tenements, is based on information provided to us by Torian and Cascade as well as information ascertainable from our searches; and
- (g) subject to the obtaining of standard, administrative authorisations (which are normally applied for only at the time of finalising details of individual exploration plans), or as otherwise detailed in the Bidder's Statement, there are no legal or regulatory impediments to Torian or Cascade undertaking exploration on the Tenements.

---

## 2. ASSUMPTIONS AND QUALIFICATIONS

In preparing the Tenement Schedule:

- (a) we have assumed the accuracy and completeness of results of the searches of the registers maintained by the DMP and other information obtained from and DMP;
- (b) we have assumed all contracts, agreements or arrangements have been supplied to us and were within the capacity and powers of, and were validly authorised, executed and delivered by and binding on each party to them, and where applicable, have been either stamped or, where unstamped, have been submitted for duty assessment and that duty will be paid in due course;

- (c) where any agreement, dealing or act (including disturbing the land for exploration or mining) affecting the Tenements requires an authorisation, approval, permission or consent (**Authorisation**) under the Mining Act, or any other relevant legislation, we have assumed that Authorisation has been or will be granted in due course;
- (d) where any dealing in the Tenements has been lodged for registration but is not yet registered, we express no opinion as to whether the registration will be effected, or the consequences of non-registration;
- (e) we have assumed that both Torian and Cascade have complied with all applicable provisions of the Mining Act and all other legislation relating to the Tenements;
- (f) where Cascade and Torian's interest in a Tenement is not registered on title and Torian or Cascade is earning an interest in such title, we have not undertaken any verification of expenditure by Torian or Cascade on individual Tenements or projects and have relied on Torian and Cascade's advice as to the work it has undertaken and expenditure incurred to earn its interests;
- (g) we have not researched the underlying land tenure in respect of the Tenements to determine if native title rights have or have not been extinguished, or the extent of any extinguishment; and
- (h) we have not researched the area of the Tenements to determine if there are any registered or unregistered sites of significance to aboriginal people within the area.

The Tenement Schedule sets out a brief description of the Tenements and a summary of any encumbrances. In relation to the Tenement Schedule, we make the following comments:

- (i) references to the areas of the Tenements are taken from the details shown on the tenement searches, it is not possible to verify those areas without conducting a survey which has not been undertaken;
- (j) the area of the Tenements as shown in the Schedule might be reduced by the existence of pre-existing mining tenements situated within the boundaries of the relevant Tenement and a subsequent requirement that the area of the earlier mining tenement is excised from the grant of the Tenement; and
- (k) the rights of a holder of a mining tenement are subject to compliance by that holder with the terms and conditions under the relevant Mining Act and the conditions specifically set out in the grant of the Tenements.
